

THE ART SUITE

Joan Miró

Живите как барселонец. Яркое пятно в нашей истории.

Joan Miró, one of the most famous Spanish artists of the 20th century, was born and raised in the Gothic Quarter of Barcelona – not too far from El Palace Barcelona. Even though he travelled far and wide, Miró was a man with deep roots in his homeland. The city of Barcelona and the countryside of Catalonia have a strong presence in the artist's work. You can find works from this world-famous artist in many corners of the city.

*“For me an object is something living.
This cigarette or this box of matches contains a secret life much more
intense than that of certain human beings.”*
